

I'm The Best Me I've Got

I'm the Best Me I've got
I'm here to tell you now that's a lot
I'm proud of all that I can do
I can make my dreams come true

I'm the Best Me I've got
I'm here to tell you now that's a lot
I'm proud of all that I can do
I can do it so can you

Imagine all your dreams come true
When love is mixed in all you do
Make a wish and a start
Your joy is made right in your heart
Trusting and trying
Fearing and flying
Laughing and loving
I love the things that I can do
Imagine me
Imagine you
I can do it so can you.

Imagine all your dreams come true
When love is mixed in all you do
Make a wish and a start
Your joy is made right in your heart
Imagine all your dreams come true
When love is mixed in all you do
Make a wish and a start
Your joy is made right in your heart

I'm the Best Me I've got
I'm here to tell you now that's a lot
I'm proud of all that I can do
I can make my dreams come true

I'm the Best Me I've got
I'm here to tell you now that's a lot
I'm proud of all that I can do
I can do it so can you
I can do it so can you
