

Love One Another

Let us love one another right now
Let us love one another right now
In our work and in our play
Let us love one another right now

Let us love one another right now
Let us love one another right now
With friends and strangers everywhere
Let us love one another right now

Always let God's love shine through
In all we say and do
Let love grow from me to you
Let us love one another right now

Let us love one another right now
Let us love one another right now
In our work and in our play
Let us love one another right now

Let us love one another right now
Let us love one another right now
With friends and strangers everywhere
Let us love one another right now

Always let God's love shine through
In all we say and do
Let love grow from me to you
Let us love one another right now
